

*Empower a Youth in India to Realize Their University Ambitions
& Change the Course of Their Life!*

M. Bhuvanewari

Zoology / Botany

Bhuvanewari is the oldest of three children. As a result, she is given a lot of responsibilities. Her father is a day laborer who earns very little and struggles with his asthma. Her mother had three medical surgeries, including a painful hysterectomy, that have forced her to stay home bedridden. The family is still paying for these surgeries. As a result, Bhuvanewari parents have asked her to discontinue her studies so that she can stay home and look after her siblings while her dad works more hours.

Bhuvanewari loves to study. She is ambitious and would like to become a science teacher. Her own teacher has encouraged her to continue studying, but the family's debt makes it very difficult to envision a future at university without outside financial support.

**For just \$30/month, you can make
Bhuvanewari's university dreams a
reality!**

Bhuvanewari has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Bhuvanewari is eligible for financial support to cover his university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
