

*Empower a Youth in India to Realize Their University Ambitions
& Change the Course of Their Life!*

M. Valavan

Computer Engineering

Valavan is part of the Visions family! His mother runs one of our after-school Visions Learning and Empowerment Centers and has been a reliable, enthusiastic and driven member of our team for years. Unfortunately, Valavan's father does not help the family financially and has his own struggles, which themselves take an economic toll on the family's wellbeing.

Valavan and his younger brother (who is currently in 11th grade) are one year apart, and both want to attend university. Valavan has attended his mother's after-school center and has been especially drawn to the leadership trainings, which have helped him to develop his own skills and abilities. These experiences have enabled him to build resiliency and strength as he has faced hardships in his own life. He loves computers and, though he does not own one himself, wants to become a computer engineer.

For just \$30/month, you can make Valavan's university dreams a reality!

Valavan has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Valavan is eligible for financial support to cover his university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
