

*Empower a Youth in India to Realize Their University Ambitions
& Change the Course of Their Life!*

P. Akash

Nursing

Akash, currently in 12th grade, has a passion for medicine and would like to become a nurse. Both his parents are day laborers who had to make enormous sacrifices to enable his older sister to study at university (where she went on to graduate with a major in Botany). Akash has a younger brother who is still in high school. To help with their expenses, Akash's parents have asked him to stop his studies to become a day laborer like them. This was heartbreaking to Akash, who dreams of going to university.

With encouragement from his teachers and from Visions' staff, Akash is hopeful he will find a sponsor and be able to move forward in his studies. Akash loves everything related to medicine. He wishes to become a nurse to be a first responder when people have accidents. One of his teachers in particular inspires him to have good grades and to continue his studies, because she sees his passion and his drive to give back to his community.

**For just \$30/month, you can make
Akash's university dreams a reality!**

Akash has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Akash is eligible for financial support to cover his university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
