

*Empower a Youth in India to Realize Their University Ambitions
& Change the Course of Their Life!*

S. Subithra

Nursing

Subithra has had a very difficult childhood. After her mother died when she was a young child, she was raised by her grandmother. Her father has his own struggles and does not contribute to the financial or emotional support of his family. Subithra has two younger siblings and, though their grandma works as much as her old age allows, she is not able to bring home enough money to allow Subithra to attend university.

Subithra has big dreams for herself, her family, and her future university experience though. She wants to become a nurse and help low-income and old people with their eyesight. She has seen that old people who cannot see well are not supported in her community and she wants to help them. Her dream of uplifting her family and her community could become reality with financial support.

**For just \$30/month, you can make
Subithra's university dreams a
reality!**

Subithra has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Subithra is eligible for financial support to cover her university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
