

Empower a Youth in India to Realize Their University Ambitions & Change the Course of Their Life!

T. Kaviyarasan

Software Engineering

Kaviyarasan is in 12th grade. His parents work as agricultural laborers but do not own any land themselves. Their meager earnings barely allow them to survive, let alone send their son to university. Kaviyarasan loves school, and he credits his teachers for encouraging him to continue to study and be diligent about his grades. Though he does not have much financially, he is proud to say he excels in his studies. He is also an excellent artist who enjoys drawing Indian leaders.

Through attending one of our Visions Learning and Empowerment Centers, Kaviyarasan has developed a strong sense of leadership. He would like to earn enough to lift his whole family out of poverty, including helping to pay for his younger brother's university fees in two years. For these reasons, he has chosen to study software engineering, which will allow him to secure an interesting and well-paying job one day.

For just \$30/month, you can make Kaviyarasan's university dreams a reality!

Kaviyarasan has been selected to join the next batch of Visions university scholars for 2022. Under this initiative, Kaviyarasan is eligible for financial support to cover his university fees and related expenses, and will receive regular mentorship & counseling, leadership development training, English training, and more. Over the past 6 years, we have sponsored 75 talented youth in India through this initiative, which has enabled recipients to stay in school and manifest their dreams. And thirty (30) of these youth have already graduated and joined the workforce! Please join us by setting up a recurring contribution of just \$30/month or annual sponsorship of \$360, and we will keep you informed of your sponsored student's progress over the next year!
